DISTRIBUTOR PRICE SCHEDULE

This drawing is intended to assist with enquiries for droppers suited to Waratah Star® Posts.

We manufacture droppers to suit nearly any combination of wire spacings. Don't be restricted by what you see here.

Measuring Droppers

- Overall dropper length is the sum of listed spacings (to nearest 0.5cm or 0.5inch). **MAXIMUM DROPPER LENGTH** is 120cm
- We accept orders with spacings accurately expressed:
 - in inches.
 - in centimetres within 0.5cm – we supply to within tolerance of +/- 2.5mm.
- According to the post hole numbers (from bottom to top).

Lightning Fence Droppers for Other Types of Fencing

We also supply droppers (with charts available) to suit:

- JIO® Posts
- Various Pre-cast Concrete Posts
- Prefabricated Fencing – Ring Lock and Hinged Joint
- Timber Posts
- Clipex® Posts

Insulated Versions Available

All droppers pictured (in fact any dropper at all) can be supplied in an **INSULATED VERSION** to suit electric fences.
