This drawing is intended to assist with enquiries for droppers suited to Clipex® Posts.

We manufacture droppers to suit nearly any combination of wire spacings. Don't be restricted by what you see here.

Measuring Droppers

- Overall dropper length is the sum of listed spacings (to nearest 0.5cm or 0.5inch).
MAXIMUM DROPPER LENGTH is 120cm
- We accept orders with spacings accurately expressed:
 - in inches (nearly all Clipex® post hole spacings can be expressed as whole inches).
 - in centimetres within 0.5cm – we supply to within tolerance of +/- 2.5mm.
- According to the post hole numbers (from bottom to top).

Lightning Fence Droppers for Other Types of Fencing

We also supply droppers (with charts available) to suit:

- Star Posts®
- Prefabricated Fencing – Ring Lock and Hinged Joint
- J10 Posts®
- Various Pre-cast Concrete Posts
- Timber Posts
