

Lightning Poly Dropper (LPD)

DESCRIPTION

- All-purpose poly fence dropper
- Made from black, UV-stabilised HDPE
- I Beam Shape – (18mm flange/25mm web) for max strength and lowest weight (see side view picture)
- Dovetail notches every 25mm along length
- 2 standard lengths available 950mm, and 1,100mm
- Suitable for “hot” fence wires energized to 16,000 volts

PRODUCT CODES AND SUPPLY QUANTITY

Part No.	Description	Wt Each (gms)	Std Pack	Wt Box (kgs)
LPD950	LPD 950mm Black	195	100/Box	19.5
LPD1100	LPD 1100mm Black	210	100/Box	21

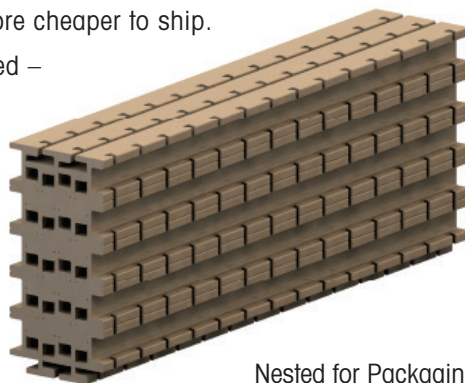

APPLICATION

Use to replace costly fence posts and to keep fence wires evenly spaced in following situations:

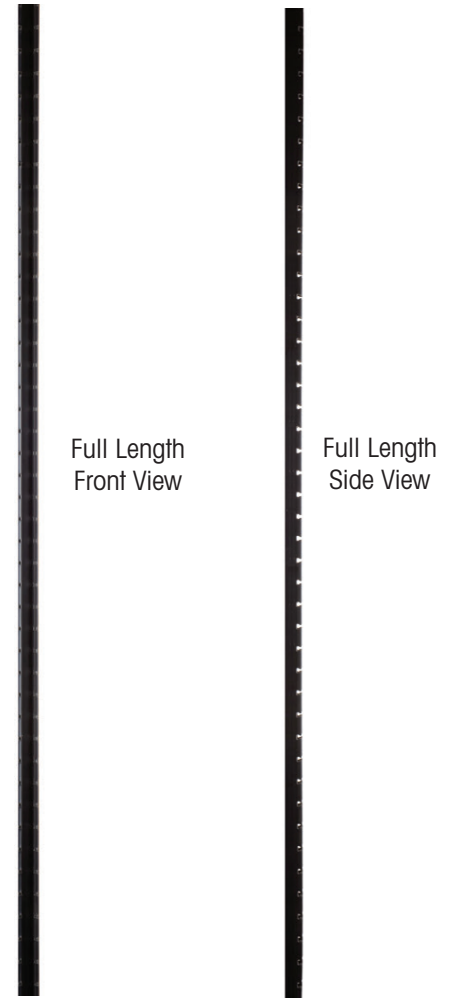

- Strand Wire fencing – both low and high tension
- Electric Fencing
- Prefabricated wire fencing – e.g. Hinged Joint
- Temporary Fencing

FEATURES

- Made from UV stabilised high density polyethylene (HDPE) gives extreme flexibility. Returns to straight even after extreme bending. Watch a demonstration video [here](#).
- I Beam shape means the LPD is strong, compact and light.
- 1/3 lighter than similar products therefore cheaper to ship.
- Quick and easy to install, no tool needed – watch the installation video [here](#).
- Strong and long-lasting. Withstands the knocks and won't come off.
- Removable and re-usable.
- Patents pending.
- Nests efficiently together for easy handling and cheaper shipping.
